Supervert

For a website - or a self-proclaimed *nom de plume* - dedicated to perversity, sexual deviances, and general rants on fornication, necrophilia and whatnot, [Supervert.com](#) looks pretty demure to the undiscerning eye.

At once a blog, a hub of four linked websites, a publishing house, an art critic and a collector of weird and wonderful sex stories from across the globe, the whole surfing experience of Supervert.com is a jewel for those who see sexuality as more than a pair of heaving boobs and a shaved torso.

There are links to downloadable texts by the Master Philosopher of sexual deviancy himself, Georges Bataille, as well as sister sites dedicated to Charles Baudelaire's *Fleurs du Mal*, and to all that is William Burroughs.

PervScan.com, another affiliate of the Supervert collective, scans the tabloid pages of the world into the most twisted compilation of sex-induced stories, from necro-zoo-philia, to US breasts awarded First Amendment protection. Instead of simply paraphrasing the oddball anecdotes, Supervert uses the information to analyze and understand the weird underside of human depravities - eerily close to home sometimes!

And if you are simply after a pair of heaving tits and shaved torsos, Supervert will courteously redirect you to its selection of "good porn" out there, so everyone stays happy.
